Fillmaster Jr.

PISTON-TYPE FILLING MACHINES

Standard table top Junior model with 5 gallon hopper

with floor stand and positive cut-off nozzle

- *will fill water thin to highly viscous, chunky and heated products*
- *all pneumatic*
- *accuracy of fill plus or minus ½ of 1 percent by volume*
- *entire construction with stainless materials*
- *quick and easy to clean and changeover*
- *available in Junior (up to 8 oz.), Quart (up to 36 oz.), ½ gal., gallon and 2.5 gal. models*
- *can be conveyORIZED, multiple nozzle model also available*

FILLMASTER JR.

DESCRIPTION:

This machine is compact and very simple in design and operation. The Fillmaster 5000 will fill thin liquids as well as highly viscous products, including those containing particulates.

To operate, the machine is connected to an air compressor. Product is then loaded into the hopper. The volume to be dispensed is adjusted by turning a hand wheel. The speed of the machine can also be easily adjusted. Containers (one at a time) are placed under the filling nozzle. The foot pedal is pressed and the machine starts to fill. Depending upon the product, volume and size opening, 10 to 40 containers per minute can be filled.

HOW IT WORKS

Product is drawn from hopper

Valve rotor shifts and product is dispensed from cylinder. Valve rotor shifts back, cutting off flow.

STANDARD FEATURES:

Type 304 stainless steel and FDA plastic product contact parts, conical style hopper, cylinder, piston, nozzle, air cylinders for piston and valve rotor, 3 way valve with PET rotor, anodized aluminum base plate with stainless steel side panels, volume adjustment, air filter-regulator, foot switch.

OPTIONS:

larger capacity hoppers, positive cut-off nozzle, floor stand, mixer-agitators, heated hoppers, diving nozzle mechanism, conveyor with indexing system, lid for hopper, level control, etc.

SPECIFICATIONS:

Dimensions: 20" long x 24" high x 12" wide
 Weight: 55 lbs.
 Compressed Air: 4-5 cfm @100 psi
 Fill Range: Junior model - cylinder (.1 to 8 fl. oz.)*
 (*additional size cylinders are available)

Quart Model

Floor level version

2 cylinder table top

4 cylinder automatic

Cup filling and sealing machine

Optional Accessories

Adj. height s.s. floor stand

Positive cut-off filling nozzle

Container table

s.s. container track

Product Mixer/Agitator

Silicone heater for hopper

Diving nozzle attachment

Container lift mechanism

Level control

Micro fill adjustment

Single cycle / continuous cycle switch

Hand cap tightener

Conveyors

Container indexers

Press plate hopper

floor level set-up

table top labeler
